MM9575 METALLIC BRIGHT BLUE

DEBEER
REFINISH

ENSURE A DEEPER AND MORE SATURATED BLUE FINISH

DeBeer Refinish makes it easy for you to perfectly colour match and achieve OEM-standard repairs on both simple and complex finishes.

Metallic Bright Blue is a new special effect toner that has been introduced to the DeBeer WaterBase 900+ Series portfolio.

Its advanced formulation ensures for even better colour-matching abilities for bright blue toned OEM cars, particularly the blue colours used in newer vehicle models.

Superior Colour

The blue metallic particles used in the Metallic Bright Blue make it possible to mix more saturated blue effect colours. The toner ensures a deeper and richer effect colour can be achieved to produce a perfect colour match and striking results.

Ease of application

The toner is user-friendly, its simple base coat application means you can deliver exceptional results with great depth quickly and easily.

How to access the Metallic Bright Blue

Please ensure that your ICRIS software is up to date. The new colour formulations with the new Metallic Bright Blue toner are available on the latest update.

To update your ICRIS software, follow the instruction below.
