

EFFICIENCY *UNLEASHED*

**BOOST BODY SHOP EFFICIENCY WITH
AIR-DRYING 8-347 FAST SURFACER**

EFFICIENCY UNLEASHED

In the fast-paced world of car refinishing, two things are crucial: increased efficiency and cost effectiveness. As energy costs continue to rise, body shops are seeking ways to reduce reliance on spray booth usage. The priming process provides an opportunity to reduce this energy drain.

The new, innovative DeBeer Refinish 8-347 Fast Surfacers offers an easy solution to these concerns. It eliminates the need for spray booth baking, helping to enhance process times and transform your overall workflow.

Benefits to your body shop:

Air-drying power
Cut drying time to just 15-20 minutes

Boost productivity
Eliminate bake cycles, free up spray booth capacity

Time mastery
Rapid drying times mean more jobs are completed in less time

Built-in guide coat
Removes the need for an additional guide coat

Fast Surfacers Grey

Item no.	8-347
Art. no.	8-347.G01
Contents	Gallon/3.78L
Per box	4

Art. no.	8-34710.G01
Contents	Gallon/3.78L
Per box	4

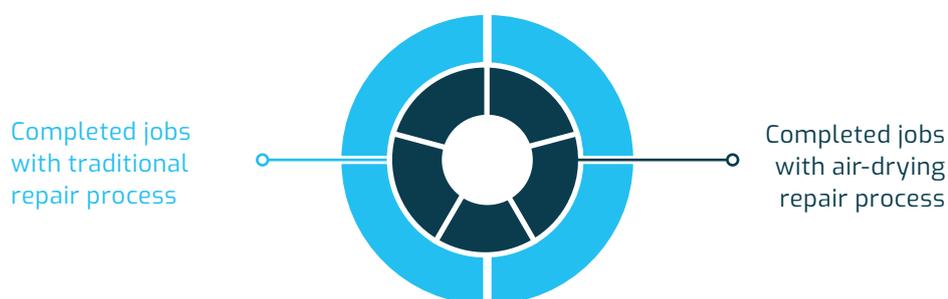

Fast Surfacers Black

Item no.	8-34740
Art. no.	8-34740.G01
Contents	Gallon/3.78L
Per box	4

Speed and precision

Getting rid of the bake cycle isn't just about saving on energy costs – it's about improving your overall productivity. With air-drying, the need for a 30-minute bake cycle* becomes obsolete, freeing up the spray booth capacity. For example, if your body shop completes four jobs a day with a 30-minute bake cycle, using the 8-347 Fast Surfacer instead allows your shop to tackle more vehicles within the same timeframe.

* 30-minute bake cycle used as an example for a universal surfacer.

Elevate throughput, profits and colour matching

The faster the drying, the more jobs you can complete, and the more profits you can generate. Our surfacer reduces process times, boosts throughput, and features three grey shades for precise colour matching.

Boost efficiency with air-drying power

The 8-347 Fast Surfacer removes the need for energy-intensive baking. With air-drying reduced to just 15-20 minutes, body shops will see a drop in energy expenses. It also helps in creating a more environmentally conscious and efficient operation.

Dedicated thinner and hardener

The 8-347 Fast Surfacer comes with dedicated thinner and hardener. For technical information refer to the product's Technical Data Sheet.

Fast Surfacer Thinner

Item no.	8-351
Art. no.	8-351/5
Contents	5L
Per box	3

Fast Surfacer Hardener

Item no.	8-355
Art. no.	8-355/2.5
Contents	2.5L
